Dear Recruitment Team,
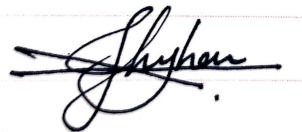

I am thrilled to apply for the Senior Software Engineer position at Singtel, With over six years of expertise in Microservice architecture and one year specializing in GDS and the Airline industry adhering to IATA Standards, I am well-equipped to design and implement scalable, resilient microservices. My track record of successfully delivering high-quality solutions across seven projects demonstrates my commitment to innovation and excellence.

Throughout my career, I have leveraged Software Design Principles and Architectural Patterns, Infrastructure, System design and integration, Java and Microservice Design patterns and Best practices creating efficient and maintainable systems that meet and exceed business requirements. My technical expertise in backend development and my passion for innovation allow me to contribute effectively to cutting-edge projects and deliver impactful solutions.

I am adept at utilizing cutting-edge technologies and frameworks, including those in the Spring Eco-System, to build robust applications that cater to modern business needs. My proficiency in Java and the Spring framework enables me to develop performant and scalable solutions that stand the test of time. I am eager to bring my skills and expertise to contribute to the success of Singtel. I believe that my passion for software engineering and my commitment to excellence align perfectly with the vision of your esteemed organization.

It would be a pleasure to learn more about the company's needs, and I would welcome the chance to provide further insight into my knowledge of technical abilities, personal attributes, and experience in building applications compatible across multiple platforms, browsers and devices. I am eager to bring my skills and expertise to contribute to the success of Singtel. I believe that my passion for software engineering and my commitment to excellence align perfectly with the vision of your esteemed organization.

Sincerely,

Thushan Jayasundara
